

Quartier Pinot Gris 2023 – Reviews

Wine Pilot, April 2024

Ken Garrett

It has taken little more than a blink of a viticultural eye for Mornington Peninsula to establish itself as one of the country's top regions to grow Pinot Gris. A lovely pale yellow, this is a refined style of Pinot Gris with its gorgeous texture the real highlight. There are notes of peaches and pears on the nose, and hints of oatmeal emerging on the palate. This is a seriously impressive Pinot Gris with very good length and some early complexity evident. Four to six years.
